DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicants' submission, filed 11/14/05, has been entered.

The information disclosure statement (IDS) submitted on 11/14/05 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Claims herein under examination are 30, 44, and 61-66.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The invention directed to a machine readable storage medium comprising a program containing a set of instructions for causing a cell screening system to execute procedures for detecting the distribution of one or more cellular macromolecule of interest between a cell cytoplasm and a plasma membrane in individual cells which is not found in the prior art before this invention's effective filing date. The lack of scope of enablement rejection for claims 30, 44, and 61-66, mailed 5/4/05, was removed once the control limitation was added to compare with the results from the test stimulus in step (f)(i) of instant claim 30. Because no outstanding rejections remain, the claimed invention is deemed allowable.
